

Table 11.4 Reputation Rankings for the World and Asia

U.S. News uses Thomson Reuters scores for its global reputation rankings as does InCites. I used InCites because I could download the top 200. There are some differences between the two but not to change the outcome. As shown in Table 11.4 below, there is consistency between the reputation rankings and composite score for the global top ten universities. This is not the case for the Asian rankings
